One-Round Karl.

The fistic encounter on Main Street Friday afternoon only went one round, much to the disappointment of the onlookers. Karl appeared to get in the first blow with a right jab to Louie's jaw, when Louie countered with a left hook to Karl's proboscis, drawing the claret. On this, both pugilists commenced to mix it with short-arm punches, when Fence-maker Bill interfered and stopped the fracas. Before leaving each promised to meet the other on an early date, and settle the matter in dispute. Karl has gone into training.

A MEETING FOR
JUNIOR HOCKEYISTS
WILL BE HELD AT 8.30,
WEDNESDAY, OCT. 5,
AT THE BRICK BANK
BUILDING. BE THERE!

Young People's Club.

A young people's club was organised at a meeting held at the home of Rev. and Mrs. Sieber on Tues. Sept. 13. The following officers were elected for the year:

Pres., Madeline McCulla.
V. Pres., Saunders Everitt.
Sec-treas., Eame Malloch.
"Wohelo" club was the name chosen for the organization.

The Wohelo club held its first meeting at United Mansie Tues. Sept. 20. The evening was a literary event, arranged by the Literary convener, Marie Clark; 2 excellent papers were the features of the evening; Nora Kowensky gave a paper on "Pauline Johnson" and Madeline McCulla gave a paper on "The Passion Play of Oberammergau." Refreshments being served brought to a close an enjoyable evening.

The Local Band.

The preliminary steps to form a town band here were taken last week at a meeting which was held in the U.F.A. hall with Mr. Barth in the chair and H Wolfe acting as secretary.

After considerable discussion it was decided to have a senior band, with a junior branch. Practice nights will be Monday and Thursday, in the old band hall, with Mr. Barth acting as instructor for both senior and junior.

A committee was appointed whose business will be to draw up the necessary rules and regulations to govern the conduct of the bands. This committee will be composed of Messrs C. Anderson, Breitkreutz and Barth.

The first practice was held Monday last, with a good attendance of youths present. The idea seems to have caught on, as practically all the young men in town have signified their intention of joining.

Farms and Farm Mortgages

In these days when so much is heard of the burden of mortgage indebtedness carried by the farmers of the Dominion, and more especially of Western Canada, the official figures contained in the bulletin recently issued by the Dominion Bureau of Statistics at Ottawa, and which are based on information compiled in the census taking of last year, are of more than passing interest. Furthermore, they are important and encouraging in that they dispel the prevailing impression that, with but few exceptions, the farms of Western Canada are under heavy mortgage. The fact is that two out of every three farms in Canada have no mortgage debt, and while the number of mortgaged farms is naturally higher in a more recently settled country like the three prairie provinces, even in these provinces less than one-half of the farms are mortgaged. This is quite different from the oft-repeated assertions that 80 to 90 per cent. of all Western farms are mortgaged.

This census bulletin is replete with interesting and valuable information, but space will permit mention of only a few of the highlights of the report. Of the 728,664 farms in Canada in 1931, full owners of farms numbered 586,299, part owners and part tenants 67,942, and tenants only 74,382, with 41 unclassified in the Yukon.

While the number of "full owners" decreased by 28,842 in the ten years elapsing since 1921, the number of part owners and part tenants increased by 27,078 and tenants only by 18,437. In the three prairie provinces fully owned farms comprise 77,064,201 acres, and rented farms 32,718,401 acres. Of the partly owned and partly rented farms in these three provinces, 16,078,801 acres are owned and 15,773,336 acres are rented.

The average size of all farms in Canada is 224.48 acres, the average size in Ontario being 118.95 acres and in Quebec 130.59 acres, but in the West the average is much larger, it being 279.19 acres in Manitoba, 400.15 acres in Alberta, and 407.95 acres in Saskatchewan.

The value of land in farms in Canada is stated to be \$2,704,760,300, Saskatchewan ranking first with \$781,124,800, Ontario second with \$577,437,800, Alberta third with \$525,272,800, Quebec fourth with \$422,100,400, and Manitoba fifth with \$209,270,900.

The value of buildings on farms in Canada totals \$1,341,403,000, Ontario coming first with \$487,009,300, Quebec second with \$266,178,200, Saskatchewan third with \$223,944,000, Alberta fourth with \$137,333,900, and Manitoba fifth with \$88,389,200.

Combining land and buildings values, Ontario is first, Saskatchewan second, Quebec third, Alberta fourth, and Manitoba fifth.

Coming back to the subject mentioned in the opening paragraph of this article, "Mortgages," it is to be noted that at the census of 1931 every farm owner in Canada was asked, for the first time, to state the total mortgage on his farm. The mortgage debt reported under this inquiry included not only the debt secured by an instrument called a "mortgage" but also debts protected by deeds of trust, judgments, or by other legal instrument that partakes of the nature of a mortgage and which has the same legal effect. The answer to this question did not include debts covered by crop liens, nor debts secured by liens on implements, machinery or live stock. Nor did the inquiry apply to farms or parts of farms rented.

The tabulated results show that 244,201 farms out of the total of 728,664 farms in Canada, or 33 1/2 per cent. were mortgaged to the aggregate amount of \$877,564,100, or 16 1/2 per cent. of the value of all farms, and approximately 50 per cent. of the value of owned farms to which the inquiry was restricted.

Out of a total of 192,174 farms in Ontario, 71,604 reported mortgages amounting in all to \$201,751,900, or 37.26 per cent. of the total. The average mortgage in Ontario was \$2,818, and the ratio of mortgage to the value of all farms 18.95 per cent. The figures for Quebec and the Maritime Provinces are considerably lower.

Contrasting Ontario with the three prairie provinces we find: Manitoba—54,109 farms; 18,949, or 34.98 per cent. of the total, reporting mortgages amounting to \$60,070,100; average mortgage \$3,170; ratio of mortgage to value of farms 20.81 per cent.

Saskatchewan—136,472 farms; 56,587, or 41.46 per cent. of the total, reporting mortgages amounting to \$177,620,800; average mortgage \$3,130; ratio of mortgage to value of farms 17.67 per cent.

Alberta—97,408 farms; 34,905, or 35.22 per cent. of the total, reporting mortgages amounting to \$108,468,700; average mortgage \$3,162; ratio of mortgage to value of farms 16.37 per cent.

It will be seen, therefore, that in these newer provinces the percentage of farms mortgaged is not much higher than in old settled Ontario; that the average mortgage is not much larger; and that the ratio of mortgages to the value of the farms is lower in Alberta and Saskatchewan and only slightly higher in the case of Manitoba—a truly remarkable showing for this newer country, much of it still in the pioneering stage of development, and a showing that should be of full encouragement for the future.

Visitors to the library of the British Museum number more than 1,200,000 every year. There are over 4,000,000 volumes on the sixty miles of shelving.

Stranger: "I've come out here to make an honest living."
Native: "Well, there's no competition."

Troubled With Her Children Having Summer Complaint

Mrs. L. E. Montgomery, Ave. K, South, Saskatoon, Sask., writes:—"I am the mother of two children and have a great deal of trouble with them having summer complaint. In fact, several times every summer they were subject to attacks."

"I have found Dr. Fowler's Extract of Wild Strawberry to be the most effective remedy and keep it always handy and give it immediately on the first sign of any bowel complaint."

"Thanks to 'Dr. Fowler's' I no longer dread the summer months."

Barriar—What possible excuse did you fellows have for acquitting that murderer?

Juryman—Insanity.
"Really! The whole twelve of you?"

An instrument has been devised by which the applause in an audience can be measured as to its intensity and duration.

The Latest Invention

Mail Carrier Demonstrates Wireless Telephone Without Any Tubes

What is believed to be the first wireless telephone communication without tubes in transmission and reception was accomplished recently when Walter Beane, proprietor of a roadside restaurant, along the Lackawanna Trail, demonstrated his invention to a group of witnesses.

Beane talked over his home-made tubeless and wireless telephone for 30 minutes over a distance of more than 100 feet. A head-set and mouth-piece was set in one building and a similar apparatus in another some distance away. Beane's set was operated on a six-volt battery, and practically all the parts were made by the inventor, who has been experimenting for some time.

Beane, who was formerly a mail carrier at Doylestown, Pennsylvania, said that the time is near when wireless, tubeless telephone systems can be installed, with a central exchange operated in the same manner as at the present time. Development and establishment of this science will save an enormous operating cost, he believes.

Beane also declared that he could show science the cause of the fluctuation of the magnetic needle as a result of extensive experiments which, he says, were successfully terminated on March 9, this year, leading to the wireless and tubeless telephone.

A Big Undertaking

Factory Moved With No Loss Of Working Time

A complete engineering factory has been removed from London to Chippenham, 94 miles away, without the loss of a single working hour.

At the end of every working day for three weeks a number of the machines were dismantled and removed to the new factory. They were immediately installed and were ready for work again the following morning.

Every employee, with his family and household effects, moved to Chippenham, during the time that the particular piece of machinery which it was his work to tend was being removed. Thus he finished work in London in the evening and started work at Chippenham the following morning.

Altogether, 750 tons of machinery, the furniture of 36 families, and more than 100 people were moved.

Help For Asthma. Neglect gives asthma a great advantage. The trouble once it has been established, fastens its grip on the bronchial passages tenaciously. Dr. J. D. Kellogg's Asthma Remedy is daily benefiting thousands of asthmatic sufferers. Years of suffering, however, might have been prevented had the remedy been used when the trouble was in its first stages. Do not neglect asthma, but use this preparation at once.

Children's Roll Of Honor

Many Names On Record In County Hall, London, England

In one of the corridors of the County Hall, London, England, on a Roll of Honor, there are the names of nearly 400 school children who have received Royal Humane Society awards for saving, or attempting to save, persons from drowning at great risk to themselves. This Roll is one of the most cherished possessions of the London Schools Swimming Association, which for 40 years has been doing splendid work among children. The ages of the brave children range from ten to 14 years.

Douglas' Egyptian Liniment makes the finest blister known. Invaluable for stock. Leaves the hair roots in natural and healthy condition. Hair comes back no more than before.

Canada's Wood Pulp Exports

The total quantity of wood-pulp exported from Canada in 1930 according to the figures lately issued by the Dominion Bureau of Statistics, in co-operation with the forest service department of the interior, was 760,220 tons, valued at \$39,059,978. The average value was thus \$51.88 per ton.

A case containing cash and jewels worth \$3,000, which an American woman reported she had lost after landing at Plymouth, England, was found later in the boat train to London.

Increase In Indian Population

More Indians In Canada Now Than Ever Before

Department of Indian Affairs officials expressed the opinion there are more Indians in Canada now than when the first white man landed in this country. The 1931 census of the Dominion gives the total number of red men as 122,920, compared with the last department census total of 108,012.

United States has an Indian population of 232,297 according to the 1930 census. Canada's population is divided:

Ontario, 3,368; British Columbia, 24,099; Manitoba, 15,417; Saskatchewan, 15,268; Alberta, 15,268; Quebec, 12,312; North West Territories, 4,046; Nova Scotia, 2,191; New Brunswick, 1,685; Yukon, 1,543; Prince Edward Island, 233.

Diet Requires Fats

Fats Constituting a Protection Against Tuberculosis

A notable fact is that diet plays a most important part in combating tuberculosis. At the Geneva session of "Warsaw" there was an alarming increase in tuberculosis, because the Germans removed as much fat of all kinds as they could with which to make high explosives. When the people of Warsaw were returned to a diet containing abundant fat, the tuberculosis declined rapidly. It is generally accepted that a diet rich in fats constitutes a definite protection against tuberculosis. Efforts made to reduce diet in factories are also cited as a contributing cause of the decline, as well as sanitation, water supply, and personal hygiene—Montreal Star.

Do not allow worms to sap the vitality of your children. If not attended to, worms may work irreparable harm to the constitution of the infant. The little sufferers cannot voice their ailment, but there are many signs by which mothers are made aware that a dose of Miller's Worms is necessary. These powders act quickly and will expel worms from the system without any inconvenience to the child.

Monaco Faces Bankruptcy

Financial Position Of World's Smallest Municipality Is Serious

Monaco, the world's smallest principality, in which is located Monte Carlo, famous gambling centre, has been hard hit by the world depression, and the consequent unemployment is causing grave alarm. M. Bouillon LaFont, vice-president of the French Chamber of Deputies, has been made minister of state for Monaco. Prince Louis himself has been conferring with the French ministry and from this it is evident that he regards the financial affairs of his country as serious. As a matter of fact, the principality is threatened with bankruptcy.

To have the children sound and healthy is the first care of a mother. They cannot be healthy if troubled with worms. Use Mother Graves' Worm Exterminator.

Rush Seems To Be Over

People Are No More Crowding Into United States

Apparently the rush to America as a land of opportunity for people of all races has come to an end. Free land which is still available is not worth cultivating. Jobs are at a premium here as they are in every other part of the world. The American economic system has arrived at a period of maturity when phenomenal growth can no longer be expected. The waste places have filled up, and industry has grown to a point considerably beyond consumption needs. Henceforth the economic development of the United States should be slower and more steady—Washington, D.C., Post.

Where Aurora Is Clearest

Returning from his cosmic ray expedition along the northwest shore of the Bay of St. Anthony H. Compton, Chicago scientist, was in Winnipeg on his way to his home in Michigan. The point of greatest intensity of "northern lights" is directly about Churchill, he declared. From where he was at Chesterfield Inlet, the lights were to be seen only by looking directly south.

IN TEARS WITH PAIN OF RHEUMATISM

"For six weeks," a woman writes, "I had rheumatism, mostly in my feet and wrists. In fact, I have been in tears with the pain. Owing to stomach trouble, I could not take any kind of medicine, as it made me feel sick. So a lady said I should try Kruschen Salts. I am very thankful that I did so, for now I feel completely restored. I have not been taking anything else, so it must be Kruschen that has relieved me."—Mrs. C.

The six mineral salts of Kruschen have a direct effect upon the whole bloodstream, neutralizing uric acid, which is the recognized cause of rheumatism. They also restore the eliminating organs to proper working order, and so prevent constipation, thereby checking the further formation of uric acid and other body poisons which undermine the health.

Women Loggers Work

At Vancouver Inlet

Are Making Good And Not Avoiding Tough Spots

Logging has always been classed as work for men—and hard-muscled, heavy work at that. But over at Dease Cove, across the Inlet from Vancouver, husky young women are engaged in this industry. And they aren't avoiding the tough spots either.

One woman recently exhibited five cords of shingle bolt which represented her work for the week. "I am doing work all right," she admitted, "but it gets easier as you go along. At first it was heart-breaking and I felt that my back would snap in two, but my muscles are pretty hard now. It's nothing all right, but I'd sooner be working here in the woods than somewhere down in the starchy city."

The women loggers aren't all burly specimens of their sex. One woman is the mother of three children. She is only about five feet tall, and there are muscles in her arms that are well concealed. But with the aid of a patient horse she managed to handle a prodigious amount of fallen timber during a day.

Betrayed By Fingerprints

Long-Wanted Robber Was Caught After Ten Years

Fingerprints that were ten years old recently caught up with Thomas McTyree. He had been arrested by Omaha police on a vagrancy charge. When his fingerprints were sent to Washington to be checked, it was found that McTyree was wanted in Oregon, Mo., on a ten-year-old charge of robbing a box car. Sheriff O. H. Abbott of Oregon called for McTyree to serve a prison term.

Persian Balm creates and preserves lovely and youthful complexions. Tones and stimulates the skin. Fragrant as a flower. Cool as morning dew. Swiftly absorbed by the tissues, making the skin wonderfully soft-textured. Unrivalled as an aid to feminine elegance. Delicately used. Imparts additional charm to the daintiest of women. Persian Balm is the one ideal requisite for the exacting woman. Fearless as a beautifier.

Give No Autographs

The King of England and his son, the Prince of Wales, have turned thumbs down on autographing. George Balby Beak, the British consul-general in Boston, announced that his majesty and his royal highness have laid down as a rule never to give their autographs; and that no exception to this rule can be made in any circumstances whatever.

W. N. U. 1931

Success Crowns Efforts Made To Save Antelope Herds In Their Native Habitat

Canada's success in bringing back the antelope has been acclaimed by wild life conservationists in many parts of the world, but little has been said of her successful efforts in saving the prong-horned antelope in its native habitat in Western Canada. The march of settlement in the West made disastrous inroads on the numbers of these timid animals and when their condition was brought to the attention of the Dominion Government immediate action was taken through the Department of the Interior to establish reserves for their protection and propagation. In 1914 the first sanctuary to be established was that to be later known as Wawaseky Park, an area of 54 square miles in southern Alberta about 75 miles east of Lethbridge. Shortly in 1915, an area, later to be known as Nemiskam National Park, about 25 miles north of Medicine Hat, Alberta, was set aside for the protection of antelope in that district and since then the success of the Department's efforts has been most remarkable.

The main work in the conservation of the antelope is taking place at Nemiskam Park since the area of eight and a half square miles comprising the sanctuary is fenced and a definite record of the progress of the work can be kept. The herd of approximately 425 antelope in this park represents the results of an interesting experiment. Previous to 1915 efforts at raising antelope in captivity had been unsuccessful owing to the effects of the shock of capture. Consequently officers of the National Parks Branch of the Department of the Interior, in charge of the work, hit upon the scheme of corralling a herd of antelope on a suitable grazing area. A herd of forty-two animals were observed feeding north of Medicine Hat, and the work of fencing the animals in without disturbing them was successfully carried out. Since then they have thriven evidently unconscious of their captivity and these graceful native animals are rapidly being restored in numbers.

At Wawaseky National Park, as far as observations of those in charge of the park show, the antelope which frequent this unfenced reserve are increasing. Concentrations of these animals are noticeably greater throughout the area than previous to the establishment of the park and their future in this part of the province appears assured.

Higher Wheat Price Needed

Would Do More Than Anything Else
To Bring West Back

However, taking Western Canada as a whole this will not be a depressing year. Much of the crop will be used to meet their current bills and their taxes and to provide for seed and feed. The more fortunate ones will also have enough to pay the current mortgage interest.

The crop is big enough to make every few cents advance in price important. Westerners are not looking for higher prices, they are praying for them nevertheless. No single factor could do more to bring back the West than a rise in the price of wheat. Nothing else can do the job alone.—Financial Post.

China has decided to participate in the Chicago exposition next year.

"You only married me for my money."
"Just the opposite, dear. Because I had none."—Wahre Jakob, Berlin.

W. N. U. 1961

Wealth From the Land

Increase in Revenue From Alberta's
Farm Products Is Expected

Several million dollars increase in revenue from Alberta farm products is expected in 1932, compared with the 1931 figures, according to financial men.

The 1932 revenue is expected to exceed \$12,000,000 compared with \$11,000,000 in 1931.

Alberta's farm animal production for 1932 will total \$16,000,000 it is estimated. The dairy industry is estimated to realize \$12,000,000, while poultry and poultry products may reach \$8,000,000. Miscellaneous commodities, it is believed, will return \$300,000.

These figures, added to \$116,000,000 set as the value of this year's field crops, result in the estimated \$152,000,000 total.

This does not allow for probable increases in market prices. If any improvement in prices occurs the total will be much larger, it is pointed out.

Mild Winter Predicted

Cree Indians Say There Will Be Lots
Of Snow

Western Canada can prepare for a mild winter with plenty of snow. A late fall and an early spring will cut down the winter far below its usual length. That's the decision of the official weather men of the Cree Indians at The Pas, Man.

Year after year the Indians have been calling the turn on the weather and always correctly. The uncanny skill of the aborigines in forecasting the weather for the coming season is highly respected in the north country. To gain their information they closely observe the actions of animals and other animals at this time of the year.

Churchill Could Have Handled More Wheat

Shipping Agent Disappointed In
Amount Of Tonnage Offered

With the successful clearing from Churchill of all boats in that vicinity, some 2,000,000 bushels of grain will have been exported in the first commercial season of the Hudson Bay route, Thomas Harting, shipping agent, said at Montreal. Eight steamers were chartered this year to carry grain overseas from the northern port.

It would have been possible to handle a much greater quantity," Mr. Harting said, "and I am a little disappointed that more tonnage did not come out." The area about Prince Albert and Saskatchewan can provide approximately 45,000,000 bushels for shipment through Churchill annually, he said.

Free storage in the elevator at Churchill and elimination of transfer charges had been of assistance in promoting use of the new route, but Mr. Harting expressed the belief that establishment of ordinary rates, such as prevail in Montreal and other ports will have little effect on the volume of shipments next year.

The question of rates at the Hudson Bay port would probably be dealt with in the report of the transportation commission, Mr. Harting said.

Reducing Temperature

Offices Cooled As Well As Heated By
Steam

A system for cooling business offices by steam has been tried with success in Detroit. Steam under high pressure is passed through a nozzle at high velocity where it acts as a pump to remove the air and vapor from a tank of water. This produces a vacuum which cools the water rapidly, and the water is then pumped through cooling coils to reduce the temperature in the rooms. Modern science has thus destroyed another illusion, that janitors only work in the winter months.

About nine per cent. of the forest area are due to railroads, it is said.

Exports Of Home Grown Wool Have Developed Rapidly During The Past Few Years

Plymouth Rocks Sent To Arctic Outpost

Aklavik Residents Look Forward To
Having Fresh Eggs

No longer will residents at Aklavik, one of the last outposts in the western Arctic, sigh for nice fresh eggs. Aklavik, which is more than 1,500 miles north of Edmonton and up in the Arctic circle, has had its population increased by thirteen pullets and two roosters, and the residents will have fresh eggs—that is if the hens continue to lay.

G. M. Cormie, provincial poultry commissioner, shipped the feathered flock to P. Stromberg, described as a "poultry fancier of Aklavik." Aklavik has no chickens at the present time, it is stated.

The chickens travelled by train to McMurray and then by boat to Aklavik. They are pure-bred-to-day named Plymouth Rocks and are five-and-a-half-months' old pullets.

The hens are in good condition to face the long winter darkness of the north. On the trip north they were fed a special laying mash and whole grain to keep them laying until they arrived.

In announcing the trip by the chickens, the poultry branch remarks that, in their going north. In this connection it might be recalled that a team of horses went as far north as Arctic Red River by boat last year to do various pieces of work around different posts. At Arctic Red River children who had never seen horses raced open-mouthed at them and called them "big dogs."

Irate Parent—"Didn't I see you kiss my daughter, sir?"

Nervy Youth—"How should I know? Do you think I'd be gawking around when I was doing a thing like that?"

Canadian exports of home-grown wool have developed rapidly since the war. They now amount to a yearly average of 7,000,000 lbs.—about 40 per cent. of the whole Canadian production—as compared with only a million pounds per annum in pre-war days.

Prior to 1931, the bulk was taken by the United States, but last year the United Kingdom took the major part of Canadian wool exports.

These facts are revealed in a new report on the production of, and trade in, wool issued by the Empire Marketing board: "Wool Survey: A Summary of Production and Trade in the Empire and Foreign Countries."

Nearly one-half of the world's raw wool, and over two-thirds of the wool entering trade is produced within the British Empire. The world's sheep population is estimated at nearly 500 million head, of which about one-third are in the Empire. They produce between 3,500 and 4,000 million lbs. of wool per annum and of this amount about 1,500 million lbs., including much of the best wool in the world comes from the British dominions of Australia, the Union of South Africa and New Zealand.

Among the other important producers, consisting of South America, the United States of America and Russia, only South America has a surplus for export. The United States of America is largely self-sufficient as regards merino and cross-bred wools, but imports carpet wools. Russia produces almost entirely carpet wools, and imports both the finer wools and wools of the carpet type. Neither of these countries seems likely to assume any importance in the near future as an exporter of raw wool.

After reviewing the development of the sheep population, the wool production and the wool trade of each of the principal countries concerned, together with the course of raw wool prices over the past 40 years, the survey reaches the following conclusions:

There has been no exceptional increase in the sheep population or the wool production of the world in recent years; indeed, between 1925 and 1930 there appears to have been a small decrease in wool production, and although the year 1931, according to the partial estimates at present available, probably witnessed an increase in production over 1930, it is not anticipated that the record level of 1925 will be appreciably exceeded. British Empire countries have maintained their share of the world's sheep population at about one-third, and their share of the world's production of raw wool at about one-half.

In the export trade, in which the share of Empire countries is over two-thirds of the world total, there has been, on the whole, little variation since 1926 in the consignment of raw wool from producing to manufacturing countries, and there would appear to be no abnormally large accumulation of stocks of new wool in the principal exporting countries. At the end of the 1930-31 season, when stocks in certain of the principal producing areas were higher than usual, they still formed only a very small part of the total annual wool production. No large stocks have been allowed to accumulate through efforts to maintain prices, and proposals to restrict the sales or stabilize the prices of raw wool have been vigorously opposed.

Game Laws Of The Provinces

The game laws of the different provinces are drafted by the provincial governments with a view to meeting local conditions; consequently there is no uniform game law for the Dominion as a whole. As these game laws are subject to revision from year to year, persons contemplating a hunting trip are advised to obtain the latest current game laws and regulations of the province in which they intend to hunt.

The National Development Bureau of the Department of the Interior at Ottawa will gladly supply information on hunting in Canada, by either complying with requests, or referring same to other sources from which the particulars desired may be obtained.

"Where does this path go to?"
"It doesn't go anywhere. Can't you see how still it is?"—Gutierrez, Madrid.

HUNTING IN CANADA

WIDE VARIETY OF

BIG AND SMALL GAME

HUNTING GROUNDS

EASILY REACHED

REASONS OF GENEROUS LENGTH

HUNTING recent years there has been an exceptional increase in the number of people of this country who enjoy the sport of hunting and many thousands go afield yearly, with rifle or shotgun. No other section of the world can offer to the sportsman the same favourable conditions as prevail in Canada with its immense areas of virgin territory within rapid and comfortable means of access.

Vast Hunting Areas
This country possesses over 1,000,000 square miles of forest, which shelters game animals ranging from the wild rabbit to the huge and dangerous grizzly bear. Moose, caribou, elk, deer, bighorn sheep, mountain goat, timber wolf and bear are plentiful and may be hunted during open seasons of generous length.

Wild Fowl Abundant
The numerous lakes and ponds of northern Canada are the breeding places of the mallard, waterfowl population of the American continent consequently ducks, geese and other waterfowl are plentiful in seasonal years. The ruffed grouse or partridge is the most important upland bird and is common to every province, while woodcock, prairie chicken, Hungarian partridge and ptarmigan provide good sport, in certain districts.

Hunting Grounds Easy Of Access
Accessibility is an outstanding feature of much of Canada's hunting territory. The country is well served by roads, railways and steamboat lines, over which the sportsman may travel in the comfort of the "going in" point. Areas previously inaccessible may also now be reached by airplane in a few hours' flight. Deft driving of "game" points are numerous throughout game areas and at these will be found reliable outfitters and qualified guides, who are prepared to look after the sportsman's every need and guidance while in the hunting territory. In several of the provinces it is compulsory for the hunter to be accompanied by a guide, but, even in those provinces where it is not compulsory, it is often advisable to engage guides. These men, being familiar with the territory in which they operate, are able to add greatly to the enjoyment and success of the trip.

Conservation Of Game
In Canada a practical form of conservation is found in the setting aside of tracts of public lands as game reserves, and in the rigid protection of game in national parks and provincial parks. In these areas the game multiplies rapidly, under protection, and spreads over into the surrounding country. This favourable condition, coupled with sound protective legislation regulating the open

seasons, bag limits, issuing of licenses, etc., assures continuance of a supply of game animals and birds in their native habitat. Canada is thus able to offer the hunter exceptional opportunities for sport in season.

Hunting With Camera
To the camera-hunter and the student of wild life, the Canadian Provinces offer unusual opportunities for interesting experiences and records. There is no closed season on game to the camera-hunter and, throughout the year, he will find favourable conditions to study the habits of game animals and birds and to photograph them in their natural surroundings.

Game Laws Of The Provinces
The game laws of the different provinces are drafted by the provincial governments with a view to meeting local conditions; consequently there is no uniform game law for the Dominion as a whole. As these game laws are subject to revision from year to year, persons contemplating a hunting trip are advised to obtain the latest current game laws and regulations of the province in which they intend to hunt.

The National Development Bureau of the Department of the Interior at Ottawa will gladly supply information on hunting in Canada, by either complying with requests, or referring same to other sources from which the particulars desired may be obtained.

Try Little E. Plinkman's Vegetable Compound

Too "Worn-Out" to go

Another date broken... Could it say to her feet, a minute longer! Little E. Plinkman's Vegetable Compound always relieves cramps. Try it next month.

WORLD HAPPENINGS BRIEFLY TOLD

Sir Ronald Ross, noted authority on tropical diseases, is dead, aged 75. The adventurous whaling industry may be revived to prosperity on the British Columbia coast as a result of a rise in oil prices of 30 per cent.

Rolling an automobile tire before him, Emory Cross took off from Weland, Ont., on a seven-year jaunt around the world.

The city of Tarrus, home of Saint Paul, was swept by fire. The flames destroyed 144 houses with the loss of \$100,000.

The admiralty ordered the keel to be laid on October 1 for Germany's third "pocket battleship," to be known for the present as "armored ship C."

For lack of funds Berlin streets have for years been so badly neglected that a number of important thoroughfares have now been closed for heavy trucks.

Mrs. W. Thrift, of Sidsop, England, whose husband was reported missing during the World War, has just been notified that he was killed near Cambrai.

A number of Alberta areas face a potato shortage because of two months of hot weather without rain this summer, according to Calgary merchants.

Sweden is motorized. Of every 100 vehicles one meets on its roads, only 11 are horse-drawn, the annual Swedish Road Congress at Gothenburg, Sweden, was told.

Sir Henry Simson, the physician who was in attendance at the birth of Princess Elizabeth and Princess Margaret Rose, children of the Duke of York, died suddenly of a heart attack. He was 90 years old.

Big Fur Shipment

Furs To Value Of Half A Million Arrive From H.B. Region

A ton and a half of fur from the northern barren lands, principally from along the west coast of Hudson Bay, passed through The Pas, Man., recently, on the way to the markets of the world. The shipment is valued at roughly half a million dollars.

The fur-fox, mink, marten—was caught during the past year by Eskimo, Indians, and white trappers in the sub-Arctic wastes. Only the richest and most choice fur was brought down.

From Chesterfield Inlet and other points it was flown to Churchill by the three Junkers "planes of the Canadian Airways, and then loaded on to the famous muskrat train that plies between the northern port and The Pas, Manitoba.

The fur will go by Canadian National Railways to the Revillon Freres Company in Canada and the Hudson Bay Company in London, England.

A: "Do you know your wife is telling everyone you can't keep her in clothes?"

B: "That's nothing. I bought her a home and I can't keep her in that either."

CARTER'S LIVER PILLS

A Mark Of Distinction

Ability To Keep Ears Open and Mouth Shut

A man seeking a job advertises in this way in a New York newspaper: "I have just enough brains to keep my mouth shut, my ears open and present a good executive appearance. Do you need a front for your business?"

We suspect the gentleman is not being quite frank with his public. Probably he is a very shrewd, capable person who thinks an air of humility, of self-deprecation, an original line of approach, may achieve the results likely to be denied a more orthodox recital of his good qualities. The fact is, of course, that ability to keep the mouth shut and the ears open is a mark of considerable distinction and a virtue commonly denied to a great many persons. The "front" of "good executive appearance" and nothing to back it up is much more apt to keep his mouth open and his ears shut. If he knows enough to reverse the process he is more than just a front—Ottawa Journal.

Winnipeg Newspaper Union

(By Ruth Rogers)

A WRAP-AROUND MODEL FOR YOU IF YOU'RE A WEE BIT HEAVY

Still another smart and flattering style for matrons.

And it's cut on the wrap-over lines so becoming and liked. There's a slenderizing bias line at the front and at the back that reduces the hip bulk. The shawl collar is very becoming. And don't you like the shaped sleeve cuff?

So many charming materials can be used for this slim-line model.

The original was rhum-brown wool crepe with white pique trim.

It's perfectly stunning in black crepe satin with a canlon-falls back. Use the dull back surface for the collar and cuffs.

Style No. 740 is designed in sizes 36, 38, 40, 42, 44, 46 and 48 inches bust. Size 36 requires 3 1/2 yards of 39-inch contrasting.

Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Veteran Doctor Honored

Kansas People Pay Tribute To Traditions He Represented

When nearly one thousand persons assembled at Mulvane, Kansas, recently to honor the veteran physician who had ushered them into the world, they paid tribute not only to the individual but also to the traditions he represented.

The old-fashioned country physician was one of the heroes of his profession. Scientific names now dignify the shrewd psychology he administered along with his pills and powders. Under conditions that would be considered impossible today, he performed many feats of surgery. No mud was too deep and no blizzard was too blinding to keep him from answering a call to duty. The midnight beat of hoofs along the pike usually meant that he had sacrificed another night's rest in order to relieve some one's suffering.

The old-time country doctor is passing. As with the circuit rider and the colporteur, his type will eventually become extinct. But the recent assemblage in Kansas shows that modern medicine can well afford to honor the traditions of courage and duty that thousands of country doctors left behind them.—New York Evening Post.

Altitude Records

Two British Pilots Make Claims To New High Records

British pilots, flying at opposite ends of the Empire, have advanced claims to two new aviation altitude records.

Captain Cyril Unwin claimed a new record for land "planes, with a flight to 48,000 feet at Bristol. The official record is 43,154.9 feet, held by Lieutenant Apollo Coucek, United States navy.

At Port Darwin, Australia, an amphibian attached to the British navy's ship, "Albatross," was reported as claiming a new altitude record for that type of ship, with a flight to 23,000 feet.

It was also claimed that a balloon released from the "Albatross" (without passengers) reached a height of 70,000 feet, or more than 13 miles. This was set up as a record. There are no official records for passenger balloons. Professor Auguste Piccard rose nearly 11 miles over Italy in his latest stratospheric ascension.

Epitaph Was Fitting

Tombsone Dealer (after several futile suggestions): "How would just a simple 'Gone Home' do for an inscription?"

The Widow: "I guess that will be all right. It was always the last place he ever thought of going."

SUNDAY SCHOOL LESSON

OCTOBER 2

CHRISTIAN STANDARDS OF LIFE —THE CHRISTIAN'S DEVOTIONAL LIFE

Golden Text: "Grow in the grace and knowledge of our Lord and Saviour Jesus Christ."—2 Peter 3:18. Lesson: Psalms 111-8; 119:16-16; Daniel 6:10; Matthew 6:5-15; Timothy 3:14-17. Devotional Reading: Psalm 122.

Explanations and Comments

Prayer in the Christian's Devotional Life, Matthew 6:5-15.—It was the appearance of righteousness that the hypocrites coveted, not the righteousness itself, and Jesus bade His disciples not to pray as they do—standing in conspicuous places to be seen of men. They have received their reward, said Jesus; they have been seen of men and this was what they desired; they have no claim whatsoever to any further reward.

"After this manner therefore pray ye," says the Lord's Prayer is pre-figured in Matthew's Gospel. It does not mean that the prayer which follows is the only one to be offered. Rather does it counsel us to let our prayers be constituted like this Model Prayer, to let them deal with divine and human interests, with spiritual and physical wants. It reminds us of many things which we are prone to forget when we commune with God. Too many think of prayer as petition for personal needs or desires, whereas this prayer is for others as well as for self, and is concerned chiefly with God's interests and our spiritual needs.

The prayer naturally divides into two parts: the things of God; second, the things of man. "Our Father," is the address with which the prayer begins. God is never so addressed in the Old Testament, but Jesus Himself always addressed Him as Father.

"Prayer is communion with God, not as the Supreme Governor who controls the universe, but as the Father who advises, strengthens, and forgives His children in answer to their cry of need."—Kierkegaard.

"Our Father, who art in heaven. This is more, shall I say, than God's postal address. Our Father is in the space of supreme dominion, love rules the universe."—J. D. Jones.

Hallowed be Thy name. The name of God stands for God Himself. His revealed nature. Hallowed means treated as holy, revered, rightly worshipped. In this petition we pray that we may honor the Father in thought and life.

There are many ways in which we may fail to hallow God's name. Swearing is profaning God. Irreverent worship is profaning Him. Harboring unworthy ideas of His Nature, thinking Him cruel, unkind, in profaning Him. Deeds profane the name of God more than words can.

Thy Kingdom come. Let Thy sovereignty be realized, and it will be when the words of the next petition become true: when every one's will is in as perfect accord with God's will as was the will of Jesus.

"The prettiest dress at the picnic" everybody said

"I must tell you about going to a big, all-day picnic," writes a woman from Ontario. "I thought I couldn't go because I had nothing fit to wear and couldn't afford a new dress. The day before, the druggist showed me a wonderful new tint powder made by the people who make Diamond Dyes, which I have often used in dyeing dark colors. These new Diamond Tints, he explained, are the same high quality as Diamond Dyes. The difference is they are for light shades and don't require boiling. I had a dress, left from last year, which faded and was so streaked and ugly I was ashamed to wear it. I decided to try Diamond Tints on it. I loved it! I got to the picnic just dissolved the powder in the fine water, and the dress came out the loveliest green! I got to the picnic after all and everybody said my dress was the prettiest one there, thanks to these new Diamond Tints."

Many Veterans Employed

England has completed arrangements for the retention permanently in the government employ of more than 13,000 ex-service clerks, who had been given temporary employment. They will be engaged on a pensionable basis. In addition more than 2,000 temporary war service stenographers are to be given pensionable employment.

Rice was brought to this country by a sea captain, returning from a voyage to Madagascar, in 1694.

DEFINITE HELP FOR DWELLERS IN APARTMENTS

Odorless way found to cook fish, cauliflower and cabbage

CANAPAR IS A PRODUCT OF HAMILTON FIRM

Lives there a woman, in apartment, duplex or home, who has not at some time or other reluctantly forgone fish, cabbage, cauliflower, or other foods they give off when being cooked? Or who has not suffered from other people close by who cooked these foods rapidly and noisily? Canapar entirely does away with this annoyance. More than that, it actually improves flavoring. Cooking in Canapar parallels the famous French method of simmering and confining food and its flavors to the dish. Canapar comes in large sheets, in a handy-size package. When boiling vegetables you simply wet the sheet of Canapar and make a bag similar to a pudding bag. If you are steaming them you line your steamer with Canapar, arrange food and seasonings, and fold back corners of Canapar to prevent steam from dripping back.

Boiled or steamed fish is particularly delicious done this way. No fishy odor in the kitchen, no gummy kettle to clean. When roasting meat, line the pan with Canapar. It prevents the fats and juices from burning, and eliminates scouring of the pan afterwards. Canapar saves fuel. You can cook three vegetables simultaneously in the same saucepan with it, without intermingling of flavors. And it is very economical. Just rinse the sheet after using it, hang it on the towel rack to dry. Use it over and over again.

Lots of women use Canapar for a dish cloth—it is so silky and satisfactory and does not spread lint. This is a particularly good use if you happen to pierce the sheet of Canapar while testing the food during the cooking of it. Canapar is made by the makers of P.A.L. Sani the famous heavy waxed paper in the Green Box. Special Offer

Most grocers, druggists and department stores sell Canapar. If yours doesn't, send the coupon direct and we'll give you a new and unique book entitled "Leftovers" containing one hundred recipes as a bonus for your trouble.

Asphodel Paper Products, Ltd., Hamilton, Ontario.

Enclosed find 25c for which please send me one full-size package of CANAPAR Cookery Parchment and your 100 recipes for "Left-overs."

PREMIER ISSUES SUMMARY OF RAILWAY PROBE

Ottawa, Ont.—Complete revolution in control and regulation of all railways as well as in the control and management of the National system is directly implied by the official abstract of the report of the Duff transportation commission issued by Prime Minister Bennett.

Three recommendations open an unbridgeable chasm between railway administration in the past and railway administration in the future. They are:

- 1—Abolition of the present National Railway directorate and the substitution as the supreme body of control of a board of three trustees.
- 2—Provision for a joint committee composed of National Railway trustees and Canadian Pacific directors to formulate and put into operation joint economies, to remove duplication, to prevent unnecessary competition.

- 3—Creation of a super-control board, called an arbitral board, of three members to decide matters upon which the joint committee cannot agree.

This board, within a defined, but wide, field of jurisdiction, is to have authority over both railways as well as over the board of railway commissioners. From a decision of the arbitral board there is to be, really, no appeal.

These are the major recommendations, but there are others:

- 1—There is a thirty-veiled reference to the "inelasticity" of freight rates being one of the important contributing factors in the present problem. This can have reference only to the Crow's Nest Pass rates, enforced on the railways by statute in 1925. The complete report, when issued, seems likely to carry a recommendation that statutory or inelastic control of railways be withdrawn.
- 2—There is an intimation that an official plan for the National Railways will be found in the official text of the report, which indicates that the National's capital structure may be up for revision.

In the negative sense, the report is important because it strongly condemns any scheme of railway amalgamation or of the leasing of the National to the Canadian Pacific.

Accompanying the abstract of the report is a brief statement from Premier R. B. Bennett, in which he declares that legislation giving effect to the recommendations which the government decides are in the public interest, will be introduced shortly after parliament opens in October.

Manitoba Marketing Bonds

Syndicate Is Handling The Four Million Dollar Issue

Winnipeg, Man.—Manitoba's new \$4,000,000 bond issue will be placed on the market at \$96.75 and will yield a little better than 5.95 per cent. interest, Hon. E. A. McPherson, provincial treasurer, announced. A syndicate of eight banking and investment houses is handling the issue.

All arrangements have been completed for offering the bonds to the public, Mr. McPherson said. They will bear interest at the rate of five and one-half per cent. on their face value, and will mature in 23 years. Principal and interest are payable in Canadian funds.

Judge Of Supreme Court
Ottawa, Ont.—Mr. Justice Oswald S. Crockett, of the King's Bench Division of the Supreme Court of New Brunswick, has been appointed a judge of the Supreme Court of Canada. He fills the vacancy caused by the death late last fall of Mr. Justice E. L. Newcombe, a former member of the Nova Scotia Bar.

Approve Disaster Relief Fund
Stresa, Italy.—The Danubian Conference has approved in principle a draft convention recommending among other steps the creation of a stabilization fund of \$75,000,000, gold francs to relieve distress in central and southeastern Europe.

W. N. U. 1961

Ask Aid For Bay Route

Regina Men Want Traffic Department To Solicit Shipments

Ottawa, Ont.—Establishment of an active traffic department by the government which would solicit shipments for the Hudson Bay Railway and the northern ocean port of Churchill has been urged on Hon. R. J. Manion, Minister of Railways and Canals. This step was advocated by C. B. McKee, past president of the Regina Board of Trade, and George A. Ewart, present commissioner of the board.

"Mr. Manion received us very cordially and courteously," said Mr. McKee. They were assured the matter would be given consideration.

Both Regina men advanced the opinion the government, to crown its work in providing an outlet to the sea for the prairie provinces, should have an active traffic department in order that importers may route as large a portion of their goods as possible via the Hudson Bay Railway.

"Through the Hudson Bay Railway, western Canada is brought 1,000 miles closer to the markets of the United Kingdom," said Mr. McKee.

"When the insurance rates come down to a more equitable level, a material boost will be effected in export costs," he added.

Some 2,500,000 bushels of wheat would be exported to Great Britain this season over the northern route, and Mr. McKee stated the first shipment of 250,000 bushels had been carried off at a saving of approximately a cent a bushel.

Indians Encamped On Ancient Reserve

Take Possession Of Land Near Selkirk, Manitoba

Winnipeg, Man.—Led by a militant chief a band of 35 families of the Saulteaux Indian tribe has defied orders of authorities and encamped on what they claim as their ancient reserve, 12 miles north of Selkirk, Man. The Indians claim the move marks the climax of a dispute of 25 years' standing. In 1907 the band surrendered the reserve at St. Peter's and under the terms of an agreement were to get \$90 per head and a reserve at Fisher River. Chief Grey Eyes, head of the band, claims his people never received \$90 and have been unable to make a living on the Fisher River reserve.

Appeals to the courts and even to the governor-general proved fruitless, he claims, and now he is determined to get back the original reserve. Members of the band are preparing to erect houses for the winter at St. Peter's.

All Canada's Gold Comes From Mines

No Swindle Here Such As Reported From Washington

Ottawa, Ont.—Practically all the gold which flows into the mint here comes from the mines, it was stated at the department of finance.

Despatches from Washington state that action has been taken there to keep swindlers from buying gold and jewelry at bargain prices on the pretence that they want the metal for the federal government. Later this gold is melted down and taken to the mint, there to be exchanged for currency.

Apparently no such swindle has gained any headway in Canada.

Japan May Leave League

New York.—Hiroshi Saito, arriving in this country to be charge d'affaires at the Japanese embassy during Ambassador Katakuchi's leave of absence, declared his country "would not hesitate a minute" to withdraw from the League of Nations if it finds itself "compelled" to by the report compiled by the commission headed by Lord Lytton of the United Kingdom.

Crew All Officers

Victoria, B.C.—Carrying a full deck complement of certificated officers, the first ship to be named to leave the port of Glasgow, the British steamer "Mogvia," Capt. J. L. McQueen, of the Donaldson line, is in Victoria after a passage of thirty days from the Clyde.

MENTIONED FOR PROMINENT POST

Bishop Owen of Niagara, prominent Church of England dignitary who is mentioned for the post of Bishop of Toronto. The election takes place on October 24th when a successor to Archbishop Sweeney will be chosen by synod delegates.

Plan Trip To Arctic

French Explorers May Undertake Journey Across Canada By Car

Montreal, Que.—French explorers who made expeditions into Africa and into Central Asia by caterpillar automobiles, may soon undertake a journey across Canada into the Arctic circle.

Jean Allouche, Parisian journalist, who described the previous explorations, is in Ottawa to discuss the possibilities with General J. H. McBrian, commissioner of the Royal Canadian Mounted Police, and to map out for himself an advance trip into the north country. The journalist reached here from France by the Cunarder "Aurania."

Allouche will proceed to Vancouver and thence to northern parts of the Pacific. He will visit outposts of the Royal Canadian Mounted Police and missions of the Oblate Fathers in the land of Eskimos. From Dawson City, which he knows well and has visited before, he will travel by aeroplane to Akilavik.

Saskatchewan May Have London Agent

Premier Anderson Intimated Appointment Was Being Considered

Saskatoon, Sask.—Speaking at a meeting here of the Kiwanis Club, Premier Anderson intimated his government was considering the appointment of a Saskatchewan agent in London, England.

He said one of the duties of such an official would be to see that all merchandise leaving Great Britain for the prairies was routed via Churchill and Hudson Bay. In addition, the agent would develop trade for Saskatchewan in British markets. He also declared the people of Saskatchewan, by insisting that goods be brought in by the Bay could greatly assist in developing the route.

CANADIAN BAR OFFICERS AT BANFF

The executives of the Canadian Bar Association and guests on the terrace of the Banff Springs Hotel. The convention visited the famous Rocky Mountain resort as luncheon guests of Rt. Hon. R. B. Bennett, Prime Minister of Canada. Left to right are, (standing): G. H. Barr, K.C., Regina; Louis St. Laurent, K.C., Quebec, past president; E. H. Coleman, K.C., Winnipeg, secretary-treasurer; D. H. Laird, K.C., Winnipeg; E. K. Williams, K.C., Winnipeg; Robert Taschereau, K.C., M.L.A., Quebec, honorary secretary; J. E. A. MacLeod, K.C., Calgary, Alberta. (Sitting, left to right): Maitre Olivier Jallu, Paris, official French delegate; Mrs. W. P. MacCracken, Washington, D.C.; Hon. N. W. Rowell, P.C., K.C., Toronto, president of the Association; Madame Jallu, Mrs. A. L. Smith, Calgary; Hon. W. P. MacCracken, Washington, D.C., official American delegate; and A. H. MacNeill, K.C., Vancouver, B.C.—Canadian Pacific Railway Photo.

Court Rules Firm Bankrupt

Investment Firm Of Machray and Sharpe Out Of Business

Winnipeg, Man.—The second firm with which J. A. Machray, former bursar of the University of Manitoba, chancellor of Church of England and prominent Winnipeg lawyer was associated, has passed out of existence. The investment firm of Machray and Sharpe was declared bankrupt and last Saturday the legal firm of Machray, Sharpe, Parker, Crawley and Richardson, was dissolved.

Evidence revealed at the hearing of the bankruptcy petition is only a "small part of the tale that yet will have to be told," Mr. Justice Macdonald declared in granting the university's petition.

The hearing, which Mr. Justice Macdonald said had revealed "alarming disclosures," disclosed that books of the company were kept in a "slipshod manner," that all monies handled by the firm were kept in a single bank account, that the company books were audited by an accountant from the Manitoba government comptroller general's office, also engaged by Machray and Sharpe, that the firm had cash assets of only \$600, and that clients were notified periodically that all accounts were in order though some trust accounts had not even been totalled in the last 16 or 17 years.

Chinese Won Case

Logic Of Orient Was Convincing For Toronto Magistrate

Toronto, Ont.—Unanswerable logic of the Orient won a case for Lee H. in health court. Lee was accused of dumping rubbish over his back fence on to a piece of city property.

Arguing his own case Lee reasoned thus: The grass on the lot was nearly a foot high but where the rubbish lay there was no grass at all. Therefore, it had lain on the ground for a much longer period than two weeks. Lee moved in only two weeks ago.

Magistrate Arthur Tinker, speechless, dismissed the case with a wave of the hand.

Lawyer Drowned At Coast

E. C. Saville Lost Life When Boat Was Upset

Salmon Arm, B.C.—Eustace Claude Saville, barrister and solicitor here for more than 20 years, was drowned while fishing off the Adams River, 35 miles from here on Shuswap Lake.

Saville was in a boat with Major H. W. Roberts when it overturned. Another fishing party went to their aid, rescuing Major Roberts, but Saville had evidently been drawn under by the strong current.

Debate Is Delayed

Geneva, Switzerland.—The World Disarmament Conference Bureau, resuming its deliberations without a representative from Germany, postponed discussion of the German demand for arms equality so that the German government might have time to respond to a letter urging it to continue participation.

HOME SECRETARY EXPLAINS ACTION ON TRADE PACTS

London, England.—Trade agreements reached at the Ottawa Imperial Economic Conference by the United Kingdom and the Dominions were condemned in a resolution adopted by the executive of the National Liberal Federation.

The resolution urges the government, parliament and all electors to "seriously consider the dangers and vicious principles inserted in the Ottawa agreements and oppose them by every means in their power." However, no call is made on Liberal ministers to resign from the National government.

Sir Herbert informed the meeting Sir Herbert Samuel, Home Secretary, under-secretary for India, attended the meeting. The Marquis of Lothian, that the Ottawa proposals were discussed by the cabinet on August 28 immediately after the return of the United Kingdom delegates. Two days later he had sent to his Liberal colleagues in the government a memorandum in which "the situation which had arisen was reviewed and a definite course of action suggested."

Hutchinson Says Route Was Safest Possible

Wrecking Of Trans-Atlantic Plane Just Had Luck

Aberdeen, Scotland.—The Hutchinson family, who with their crew of four were rescued from the bleak Greenland coast after wrecking their trans-Atlantic plane recently, landed at Embay, Scotland, from the steam trawler, "Lord Talbot."

George Hutchinson, his wife and two small children were all well, although the two girls appeared to be tired. They are en route back to New York.

"If our radio had a little more range we would have been able to pick up our bearings and would have been all right," Hutchinson said describing the accident.

Hutchinson said he wanted it understood that the adventure of his "flying family" was not a "stunt flight."

"The children have always been with us in our flying," he said. "Our route was the safest possible and we were only 14 miles from safety when the accident happened. It was just a bit of bad luck."

Britain Faces Milk Strike

Better Prices For Product Is Asked By Farmers

London, England.—British, Tuesday night, September 20, faced a country-wide hold-up of milk supplies as a result of farmers' decision to inaugurate a "milk strike" October 1, following breakdown of negotiations between their representatives and representatives of the milk-distributing combines over contract for the forthcoming year.

A statement issued by the National Farmers' Union says the decision of the milk distributors to refuse farmers better prices for their product during the coming year renders inevitable a hold-up in the supply. Unless a last-minute step is taken, the "strike" will go into effect at the end of this month.

No Holiday For Commons

Ottawa, Ont.—The House of Commons will sit on Thanksgiving Day, Monday, October 10. Inquiry made in highly informal official circles elicited the definite information that the Commons would proceed with the debate on the address on that day. Parliament opens the preceding Thursday.

Claims Record

Kiel, Germany.—Lola Schoeter claimed the world's record for a woman's parachute jump, reporting she had dropped 7,300 metres (about 22,000 feet) in 25 minutes.

All Soviet railway officials who appear on duty without wearing uniforms will be punished.

Sound Condition of Canadian Banks.

Canada has cause for pride and gratification over the manner in which her financial institutions have stood up under the strain of economic depression. There has been no bank failures, and there will be none.

The banking system of the Dominion is built upon a solid foundation and conducted on sound, sane lines. Just how important this fact is to the people becomes more apparent when banking conditions in the country to the South are examined.

In those United States over 6900 banks have failed in the past ten years, and more than 3000 of them have gone belly up since the present crisis began. These banks carried total deposits of \$2,684,000,000. The losses, hardships and sufferings entailed by these failures can readily be imagined.

Canadians are indeed fortunate in that not one dollar of the money of depositors in Canadian banks has been lost during the present period of depression.

The banks of this country are sometimes criticised as being too conservative in their policies, but the records of failures in other countries indicate that the course pursued by Canadian bankers has been amply justified.

Giving All They Can.

Hats off to the unemployed of an Ontario town, who offer to give part of their time gratis to removing leaves and rubbish from the boulevards and parks of the town and to gathering in vegetables and fruits for welfare work, while their wives sew and knit. When the workless help one another and show an appreciative spirit the heart of the community goes out to them.

Motorists Should Be Polite

A motorist across the line picked up a hitch hiker and after carrying him for seventy miles, the motorist told the hitch hiker that he had come to the end of his journey. For reply the hitch hiker pulled a gun and made the motorist drive for another fifty miles. This, says the editor of the Ottawa Citizen, should teach motorists to drive hitch hikers to their destinations like gentlemen.

Minister Has Easy Time.

The Kansas City Star says: "This has been rather a fortunate season for our preacher. What with the economic puzzle, unemployment, Sino Japanese war, and other national matters, he hasn't found it necessary to touch on the Gospel at all."

Has His Fellowship Renewed

A. E. Clarke, B.A., M.Sc., Ph.D., a former resident of this district, has been awarded a renewal of his fellowship by the National Research Council of America for the year 1932-33. Dr. Clarke received his B.A. and M.Sc. degrees from University of Alberta and Ph.D. from Wisconsin university. He was awarded 1931-32 fellowship of \$1800 in the biological sciences by National Research Council at California university, and his work there during the past year got him a renewal for 1931-2. While attending the University of Alberta he visited Stony frequently as a guest of his uncle and aunt Mr. and Mrs. J. H. Lory. He also taught school for a time at Tecumseh.

C.N.R. Releases Officials.

Further reductions in the official personnel of Canadian National Ry. have been made effective this month. Positions have been abolished or consolidated, and there was a lowering in the general average of compensation to officers. The positions which disappeared number about 45 and the revised salary ratings of C. N. R. officers are below those for corresponding positions on U. S. railways, although the C. N. R. is the largest railway in point of mileage and has gross receipts exceeded by only two systems on the continent. The reductions in salaries range from 40 p.c. in the case of some executive officers to smaller percentage decreases where the salaries were lower.

Sun "Incubator" Works.

In Sidney, New South Wales, so severe has been the heat in the country, up to 120 degrees in the shade in some places, that incubators became superfluous on chicken farms.

At Tara Moira a hen sitting on eggs went on strike and left them to their fate. But the heat was sufficient to hatch them. At Barcelona eggs were hatched in a cellar without either hen or incubator to keep them warm. One householder gathering eggs found that one had rolled from the nest into the sunlight. It was quite fresh, but cooked.

The Cause of Wrecks.

Student—What part of a car causes most of the wrecks?
Professor—The nut that holds the steering wheel.

Cook Book Sold Out.

The last edition of the U.F.W.A. Cook Book is now sold out, so the Secretaries of Locals are asked to take notice that the Central Office will not be able to fill any more orders.

REPAIR WORK!

The STONY PLAIN SUN

St. Andrews-By-The-Sea

Sea bathing in the warm waters of Katy's Cove, St. Andrews-by-the-Sea, New Brunswick, and sun bathing on the shining sands, are two of the most healthful and entertaining occupations of those who visit this popular and smart resort, which centres on the Algonquin Hotel of the Canadian Pacific Railway.

The illustration shows a group of socially prominent people from Canadian and United States cities sun bathing after a most refreshing plunge, and includes—Mr. and the Hon. Mrs. R. M. McDonald; the Hon. Peggy, Hazel and Anne Shaugnessy; Judge and Mrs. Bond; Miss Margot Red-

mond; Mrs. S. Watson; Mrs. R. D. Bell; Mrs. George Balfour; Mr. Donald Mackay; Col. Allan Magee; Gordon Shirres; Gordon Reed; Miss Dora Mague; Mrs. Nora Wainwright; Mr. R. C. Stevens; Miss Canlie, of Montreal; Miss H. Darcy, St. Louis; Miss V. Schoonmaker, New York; and D. A. Anderson, Ottawa.

Inset is little Miss Lucinda Marguerite Vaughan of Montreal, who is showing the world what the well-dressed infant wears when about to paddle in the warm water, or build a great big castle on the sands.

THE HOUSE OF DREAMS-COME-TRUE

— BY —
MARGARET FIEDLER
Author of
"The Splendid Polly," "The Herald
Of Par End,"
Hodder & Stoughton, Ltd., London.

CHAPTER XXXIII.—Continued.

"Rest?" she said, "Rest? Do you realize that I shall have all the remainder of life to rest in? There'll be nothing else to do."

She released herself very gently from Tormarin's arms, and, crossing the room to the window, stood looking out.

"How funny!" she said in a rather high-pitched uncertain voice. "It all looks just the same—although everything in the world is changed."

He came and stood by her side. "No," he said quietly. "Nothing is changed, dear. Our love is the same as it was before. Always remember that."

"But we can't ever marry now."

"No. We can't marry—now. You'll never have the Tormarin temper to bear with, after all."

She laid her hand swiftly across his lips.

"Oh, it was dreadful!" she said, recalling the terrible scene which had interrupted. "It—it hardly seemed—no, Blaise."

"For the moment it wasn't. It was the Tormarin devil—the curse of every generation. But I think that Varigny woman could turn a saint into a devil if she tried! She said something about you—and I couldn't stand it."

"Was that it? Then I suppose I shall have to forgive you"—with a pale little attempt at a smile.

But the half-hearted smile faded again almost instantly.

"Oh, Blaise, what would your temper matter if we could still be together?" she cried passionately. "Nothing in the wide world would matter then!"

Presently she spoke again.

"But it's worse for you than for me. I wish it were more equal."

"How worse for me? I don't understand. Unless"—with a brief, and smile—"you love me less?"

"Ah, you know I don't mean that! But I've only the separation to face. I'm not tied to somebody I don't love. You've got Nesta to consider."

"Nesta?" He gave a short, grim laugh. "Nesta can go back to where she came from."

There was a long silence. At last Jean broke it.

"Blaise, you can't do that—you can't send her away again," she said in quick, low tones. "She's your wife."

"My wife! She seems to have been

oblivious of the fact—and to have wished me to be equally oblivious of it—for the last few years."

"Yes, of course she's been wrong, wickedly wrong. But that doesn't alter the fact that she's your responsibility, Blaise. You must take her back."

"Take her back?"—violently, "I'll be shot if I do. She's chosen to live her life without me for the last few years—she can continue to do so."

Jean laid her hand on his arm. She was smiling wistfully.

"Dear, you'll have to take her back," she persisted gently. "Don't you see—she's not wholly to blame? You've admitted that. You've blamed yourself in a large measure for her running away. It's up to you now to put things straight, to—to give her the chance she didn't have before."

"You're discounting these last few years," he returned gravely. "These years in which she has lived a lie, allowing me to believe her dead—cheating and deceiving me as no man was ever cheated before. She's cheated me out of my happiness—heavily—"taken on you from me!"

"Yes, I know," Jean's voice quivered, but she steeled it again. "But even in that, she was not solely to blame. You've told me how—how weak she is and easily led away. And she's very young. What chance would Nesta have of asserting her will against her sister's, even had she wished to return to you? She ran away from Staple in a fit of temper and because you had frightened her. After that—you can see for yourself—Madame de Varigny is responsible for everything that has happened since."

"Tormarin remained silent. The quiet justice of Jean's summing up of the situation struck at him hard.

She waited a moment, then added quietly: "You must take her back, Blaise."

He wheeled round on her violently. "And you?" he exclaimed. "You? Did you ever love me, Jean, that you can talk so coolly about turning me over to another woman?"

She whitened at the bitter accusation in his tones, but she did not flinch.

"It's just because I love you, Blaise, that I want you to do this thing—to do the only thing that is worthy of you. Oh, my dear, my dear—her hands went out to him in sudden helpless pleading—"do you think it's easy for me to ask it?"

The desolate cry pierced him. He caught her in his arms, kissing her fiercely, adoringly.

"Sweetheart!" Forgive me! I'm half mad, I think. Beloved, say that you forgive me!"

She leaned against him, glad to feel the straining clasp of his arms about her—to rest once more in her place as she had her heart.

"Dearest of all," she said tremulously, "there is no question of forgiveness between us two. There never will be. We're just—both of us—struggling in the dark, and there's only duty"—brokenly—"only duty—to hold it."

They stood together in silence, comforted just a little by the mere human touch of each other in this communion of sorrow which had so suddenly come upon them, yet knowing in their hearts that this was the very comfort that must for ever be denied them in the lonely future.

At last Jean raised her head from its resting-place and her eyes searched Blaise's face, asking the question she could no longer bring herself to put in words. He met their gaze.

"Jean, is it your wish I do this thing—take Nesta back?"

He felt a shudder run through her frame. Twice she tried ineffectually to answer. At last she forced her dry lips to utter an affirmative.

"Go to it."

His answer sounded in her ears like the knell to the whole meaning of life. The future was settled. Henceforth their lives must lie apart.

"So be it," said Blaise. "She shall come back and take her place again at Staple."

Jean clung to him a little closer. "Blaise, beloved—I know the harder part will be yours. But mine won't be easy, dear. I shall go to Charnwood with you."

And it won't be easy, when I see you in an evening the lights twinkle up at Staple, to know that you two are within, shut in from the world to gether, while I'm outside—always outside your life and your love."

Flush away those ugly

Yellow Stains...

Gillett's Lye cleans closet bowls without scrubbing. Banishes odors, kills germs, frees drains...

WHAT woman doesn't want to get rid of it! The most unpleasant part of house-cleaning. Scrubbing toilet bowls.

Thanks to Gillett's Pure Flake Lye... this annoying job has been made easy.

Just sprinkle Gillett's Lye—full strength—into the water. Off come all stains... without scrubbing. Germs are killed... odors banished.

And more important, Gillett's Pure Flake Lye will not eat away enamel or destroy the finish of sinks and bathtubs.

REMEMBER—this powerful cleanser and disinfectant makes all your household cleaning easier. Ask for Gillett's Pure Flake Lye.

FREE BOOKLET: The Gillett's Lye Booklet shows you dozens of ways to avoid back-breaking work. Gives instructions for soap-making, ironing, etc., and for cleaning the home. Write to: Gillett's Lye Co., 1000, 1001, 1002, 1003, 1004, 1005, 1006, 1007, 1008, 1009, 1010, 1011, 1012, 1013, 1014, 1015, 1016, 1017, 1018, 1019, 1020, 1021, 1022, 1023, 1024, 1025, 1026, 1027, Abbott vs. Armbruster

Another chapter in the action of Laura Abbott vs. John Armbruster was written in the Appeal Court last Tuesday. Some time ago the original action came on for trial and was dismissed with costs. Miss Abbott then filed a notice of appeal.

Through his solicitor Mr. Armbruster applied for an order forcing Miss Abbott to give security for costs before proceeding with her appeal. This order was granted by Mr. Justice Ewing.

The plaintiff then appeared before the Appeal Court in an endeavor to have this order set aside. This she failed to do and the action was dismissed with costs. Mr. Sidney Wood appeared for Miss Abbott; Mr. G. J. Bryan for Mr. Armbruster.

Potatoes Are Plentiful.

There will be no potato famine in this district, according to present indications, despite the fact that recently the report of the vegetable inspector put the crop in the Edmonton area at only one third last year's production. Ample supplies of early dug potatoes have been brought to Stony, where as high as 10c per bu. has been paid. The digging of the main crop will not become general until next week. Although the acreage planned was down one third and yields are but half, there will be enough to go round, and exceptionally high prices are not looked for.

Friday Night's Play.

A dramatic company invaded Stony on Friday night last to give a presentation of the oldtime farce comedy "Deacon Dubbs". The show comprised "3 acts, with humor, thrills, pathos and love," admission at 35 and 15c. The players were accompanied by a group of admirers, but the comedy didn't seem to catch on with the local people, as the same play had been produced here in a very acceptable manner several years ago by Walthers League.

Searle Grain Co. Estimate.

An average yield of 27 bu. of wheat and 44 bu. of oats to the acre is expected in the Edmonton crop district, according to the crop estimates compiled by the Searle Grain Co.

Chicken Supper Dates.

Stony Plain, Thurs., Oct. 20, Moose Hall.
Duffield, Sat. Oct. 22, Pool Hall.
Spruce Grove, Tues. Oct. 25, Pool Hall.

Schedule of Mails.

To the East—Every day except Monday; train No. 2 at 6:18.
From the East—Every day except Sat.; train No. 1 at 24:18.
To West—Mon., Wed. & Friday, train No. 1 at 24:18.
From West—Sun., Wed. & Friday, train No. 2 at 6:18.
Reg. for the East, Sun. Wed. and Friday at 6:18 a.m.
Reg. for the West, Mon., Wed. & Friday at 24:17.
Mail should be posted before 10 p.m. for dispatch to both Trains No. 1 & No. 2 next morning.

Change in Passenger Service

Another change in the running time of the passenger trains is announced, to take place commencing on Sunday next, Oct. 2. Instead of coming thru Stony from the East at 24:16 in the early morning, No. 1 will arrive here on or about 7:25. No. 2 from the West, which has been coming thru at 6:15, will pass thru here early in the evening! The change is intended to speed up the passenger service between Winnipeg and Vancouver.

Brightbank News

Threshing was in full swing when the rain caused a sudden stop. Yields are fairly good, although a lot of grain shows the effect of the heat and dry weather.

Miss Marjorie Young was a week end visitor with Miss G. Sommerfield.

Mr. Louis Berry was a Sunday visitor with friends up at Carvel.

Farmers are taking advantage of the good condition of the land for plowing since the rain.

A prominent resident of the district asserts that if the rest of the world were as peaceful as his district, they could all disarm.

Wild ducks are still plentiful in the sloughs hereabouts, and some good bags have been reported.

Mr. Don McDonald, who had his hand injured recently in a kraut cutter, is making good progress toward recovery. His doctor says he's now out of danger, and will soon be able to resume his broadcasting on the old permanent wave length.

Mr. Sopokoff, a recent arrival from Austria, accompanied by a Rosenthal friend, gave this district the once-over last week, with the object of purchasing if a suitable place were found. They expect to return.

A young duck hunter from the City is said to have pulled a good one last week. When a local man checked over the City hunter for shooting with a 1931 bird game license, he replied that he "was only shooting at the birds he had missed in 1931!"

Holborn Happenings.

The junior wheat growers of Holborn district, one of whom won distinction last winter at the big Grain Show held in Toronto, have again distinguished themselves; this time by winning the Provincial Championship in Junior Wheat Club competitions—the honor going to Holborn club. The award was announced last week by the Provincial Dept. of Agriculture. Holborn club had a close shave, getting 89.7 points against Bow Island's 87.7 pts. Last year's winner was the Mundare club. The winning club this year grew Reward wheat. The club was supervised from the Department at Edmonton, there being no district agriculturist in the vicinity, and Henry Woodley and H. N. McDonald were its leader and secretary.

Farmers of this district are getting along pretty well with their threshing, operations having been resumed Monday following the recent wet spell.

Puckchasers to Meet.

The touch of cool weather has reminded the hockey players of their game. The Stony Juniors—last season's champions—are the first to respond to the urge; so a meeting of Junior hockey players has been called for the evening of Wed. next, October 5th, at 8:30, in the Brick Bank building on Main St.

Stony Plain and District

Mr. Val J. Kulak, formerly employed in a local store and more recently with Mr. Barrie at Edmonton Beach, is now the manager of a West End store in the City.

Mr. Morrison will succeed Mr. Jack McGillis as night agent at the local station, and will take charge on or about Oct. 7.

A change will shortly be made in the running time of the Evansburg-Edmonton bus.

Harvest Festival services will be held at Glory Hills Baptist church Sunday, Oct. 9th.

Stony's Junior Hockey club meets on Wed. next Oct. 5.

Messrs. Christie and Nicholls returned Sunday from a four-day motor trip thru the Entwistle district.

The popular dance under the auspices of Lucknow Athletic club, billed for tomorrow night, has been postponed to October 14.

The United Church Sunday School Rally Day Service on Sunday evening, Sept. 25, at 7:30, was a splendid success. Mrs. C. A. Gates is superintendent.

The local Moose Lodge has arranged for a dance to be held in their hall on the night Friday, Sept. 30th, Barth's orchestra.

BUTTER AND EGGS WANTED at The Royal Cafe.

Card of Thanks.

To Mr. M. Meeklingburg: This is to certify that Beaser took first prize in Vegetables exhibited at Graminia, for which your donation of a pair of glasses was given. Thanking you for same.

Mrs. Frank Eberwood,
Secy. Treas. Graminia U.F.W.A.
Local No. 12.

Church Services.

German Lutheran services will be held in Stony Plain next Sunday at 2:30 p.m.

United Church service every Sunday Evg. at 7:30.

Services in St. Philip's Church next Sunday, 7:30 p.m.

On Sunday Oct. 16 there will be Lutheran services at St. Matthew Schoolhouse at 7:30 p.m., by Rev. H. Kuring.

Bus Time Table.
